JIRA - Actualización Sprint #3

The image displays the Jira web interface for a project named "Proyecto Upgrade System". The top navigation bar includes a search bar, a "+ Crear" button, and a status indicator "Quedan 11 días". The left sidebar shows the project's structure, including "Espacio", "Recientes", "Aplicaciones", "Planes", and "Equipos".

The main area features a Kanban board with three columns: "POR HACER" (5 items), "EN CURSO" (2 items), and "HECHO" (6 items). Each item is a card representing a task, such as "HU10-Edición de perfil de empresa" or "HU16-Pruebas de integración del flujo completo del sistema".

A detailed view of issue "HU16-Pruebas de integración del flujo completo del sistema" is shown in the foreground. It includes a description, priority (High), story point estimate (Ninguno), and a list of subtasks. The "Subtareas" section shows a table with columns for "Actividad", "Pri...", "Pe...", and "Estado". The "Actividades vinculadas" section lists related activities.

The bottom of the screen shows a URL: <https://upgradesystems.atlassian.net/browse/PUS-33>.

JIRA - Actualización Sprint #3
